Summary

A hardworking and motivated Software Engineering student with basic knowledge of web and mobile app development. I enjoy building websites and mobile apps and learning new technologies. I have good coding, problem-solving, and database skills. I am looking for an entry-level opportunity where I can improve my skills, gain real-world experience, and grow with a professional team.

Projects

E-commerce

December 2025 - January 2026

E-commerce is a simple front-end project made using only React, Tailwind and DaisyUI. It is designed to showcase Home interior -related content with a clean and responsive layout. There is no backend, so it focuses only on the visual design and user interface.

Technologies: React, Tailwind and DaisyUI, JavaScript

OLISTAMI

February 2026 - March 2026

OLISTAMI is a modern event-based website built using React.js and Tailwind CSS. It is designed to showcase different types of events with a clean, responsive, and user-friendly interface. The website allows users to explore events by category, search for specific events, and view detailed information about each event. interface.

Technologies: React , Tailwind

Food order

May 2026 - June 2026

FOOD ORDER is a modern and responsive web application designed for online food ordering and restaurant management. Built with Next.js, Tailwind CSS, and JavaScript, the platform features a clean and user-friendly interface with food category filtering, menu showcase, interactive product cards, order navigation, and responsive layouts. This project demonstrates strong skills in frontend development, UI/UX design, component-based architecture, and building interactive web applications with modern technologies.

Technologies: Next.js, Tailwind

Keyperion

June 2026 - Running

Keyperion is a Flutter-based property rental management app with three roles: **Owner**, **Manager**, and **Tenant**. Owners can add properties and assign managers, while tenants can join properties, pay rent, and submit maintenance requests

Technologies: Dart, Flutter.

Education

B.Sc. in Computer Science and Engineering (CSE)

2022- 2026

Bangladesh University of Business and Technology (BUBT)
CGPA: 2.90

HSC, Science

2017-2019

Govt.Dohar Nawabganj College
